ABOUT US

DRB GROUP was established in 2011. Before taking a plunge we did our share of market survey thoroughly and after seeing the development of real estate sector, we finally decided to contribute towards Surat's visionary growth.

Being a family run business, it took no time in becoming one of the most reputed and pivotal reasons in the success of rapid growth of the real estate industry in Surat. To add to it, DRB Group did not keep themselves confined to real estate but is proudly associated with various institutional activities as well.

RAVANI DEVELOPERS, a company with more than 25 years of experience is now one of the most sought-after names in the construction arena of the state.

Given the immense scope in the housing industry in India, the company has been focusing in promoting a series of large and medium residential apartments / townships in several parts of the Surat city. Our main forte is building residential and commercial projects and to sell or lease the same with better remuneration as well. We pride ourselves in pioneering the concept of integrated townships in Surat. Our efforts is to serve and create self sufficient communities out of pockets of land and provide our customers the highest lifestyle standards.

THE 7 STAR LIVING FOR THE ELITE

LIFE IN THE 7 HEAVENS

The Celestial Dreams, a residential experience crafted to mimic the luxuries beyond the conventional. The palatial homes and the sprawling landscapes work in tandem to create an ambience beyond the five stars. The only fair description would amount to a never before known seven stars. This new benchmark in luxury forms the very basis of 'seven star living' at the Celestial Dreams.

PERCHED SKY HIGH

Perched at over 18 storeys, the towers at the Celestial Dreams truly raise the bar. With exclusive 5 and 6 bed residences, space is a given. Add to choicest of fittings, your family is simply spoilt for choice. The clubhouse is another testimony to recreation with class. From the thematic construction to rare and exquisite amenities like the Oxygen Bar, unwind with class. Goes without saying that when you choose this address, the world will look up to you.

7 STEPS TO THE CELESTIAL DREAM.

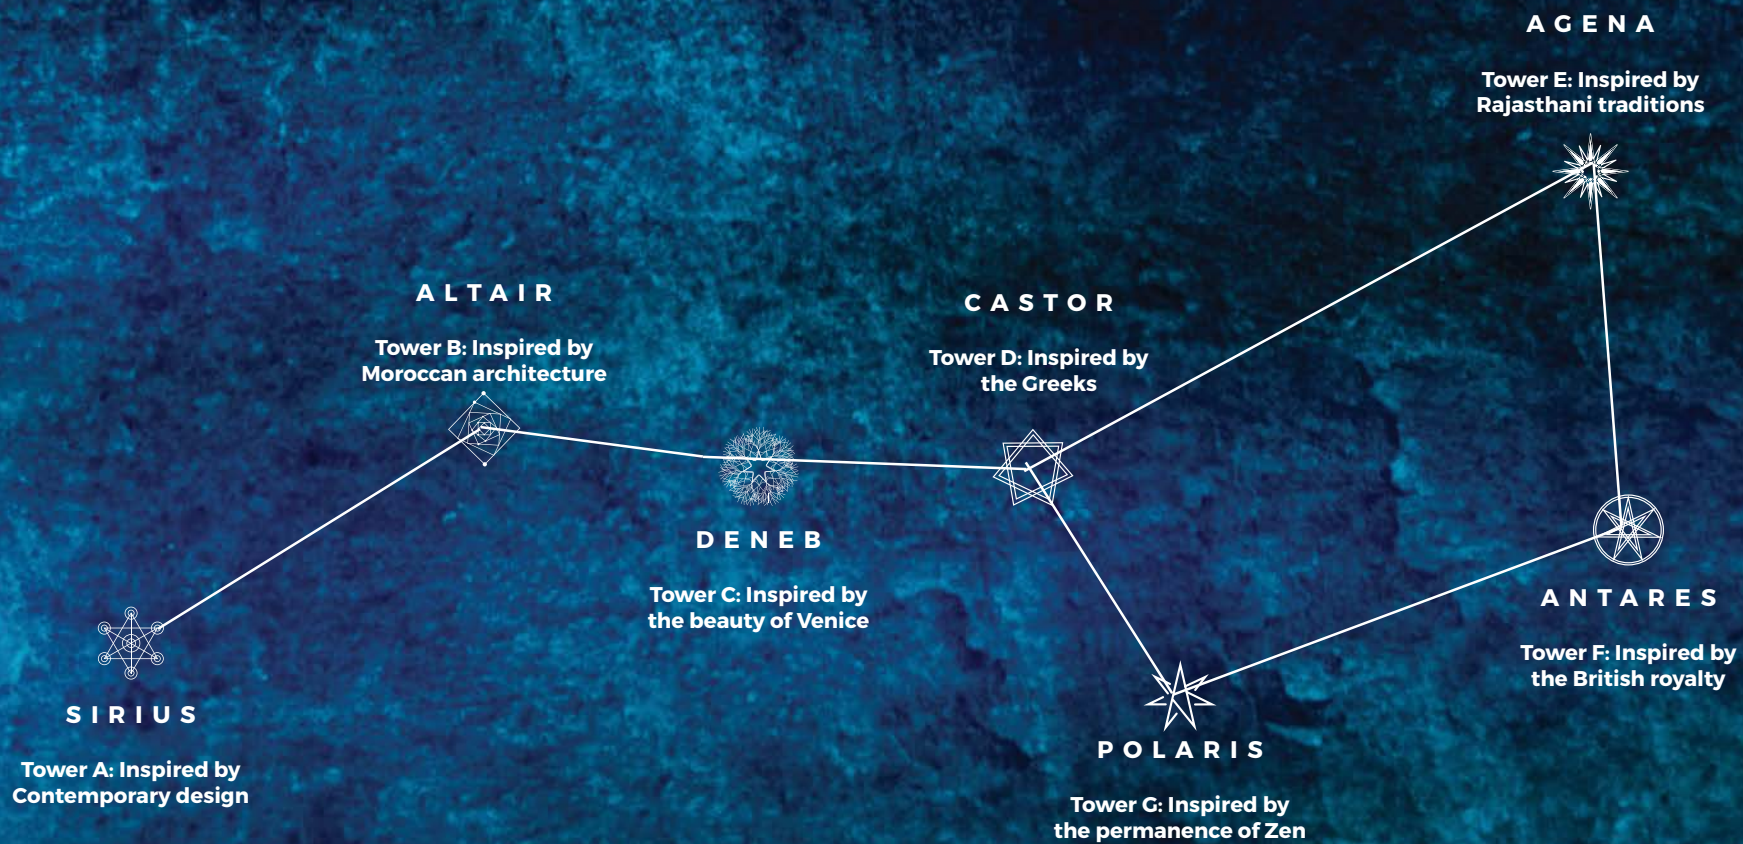

We see the other side but are we really there? We stare at its beauty but can we really touch it? The dream is such an irony to your senses but a reality to the mind. Lets journey through the 7 steps to reach the ultimate liberation, the blissful Celestial Dream.

This wall cum installation is built to represent this artistic symbolism. As a metaphor for various stages of liberation, the wall follows 7 consequent ellipses. Each representing man's liberation from various stages of constrains. First the oral dependence, the second being emotional, the third is intellectual liberation, the fourth being physical, the fifth being reflexive, sixth represents your liberation from all earthly worries and the seventh ellipse opens into the gateway to the final frontier. The last dream, a Celestial Dream.

Built in COR-TEN steel the material acquires a rustic red hue over a period of time yet retaining the durability and robustness of the structure. Embedded in a water trench the wall is a spectacle to behold. Hence aptly named The Bardo - the stages to the Celestial Dream.
